

Please be aware that K-Love has been serving my family for several years and if it weren't available any longer, due to being displaced by an LPFM broadcaster, I believe it would be harmful to the community as well as my family. K-Love is one of the few positive programs available in this area. It supports family values, which my children need to hear, and has a positive and encouraging impact on my family and others. Please do not expand the LPFM stations in my area. I listen to K-Love on 91.1 FM and want it to continue! Thank you!
